

"My confidence is up,
I feel good about myself,
and I've fallen in love
with the dental team."

EDNA

"I hope that I'm sharing
this with somebody younger
than me. I wish I had done
this years sooner. Your own
teeth are wonderful things.
Try to keep as many of
them as you can with
Sedation Dentistry."

CHRIS

"My new smile has
received so many
glowing compliments."

GWEN

"I couldn't have done it
without Sedation Dentistry.
I was embarrassed to smile.
I couldn't chew my food.
I was afraid. Now I am
smiling, eating what I
want and have my
confidence back again."

PAT

Are you...

Delaying Treatment you need and want?

Scared, even terrified, to pick
up the phone to schedule?

In pain especially when you eat?

Someone who has trouble with
gagging or getting numb?

Having trouble finding
someone you can trust?

Looking to smile again with confidence?

Overwhelmed by thoughts of
repeated visits to the dentist?

Dr. Mirelez, born in Fresno, California, was raised by his grandparents in the nearby farming town of Caruthers. He was an all-star athlete at Caruthers High School (football, basketball, baseball) and graduated in the top 5% of his class.

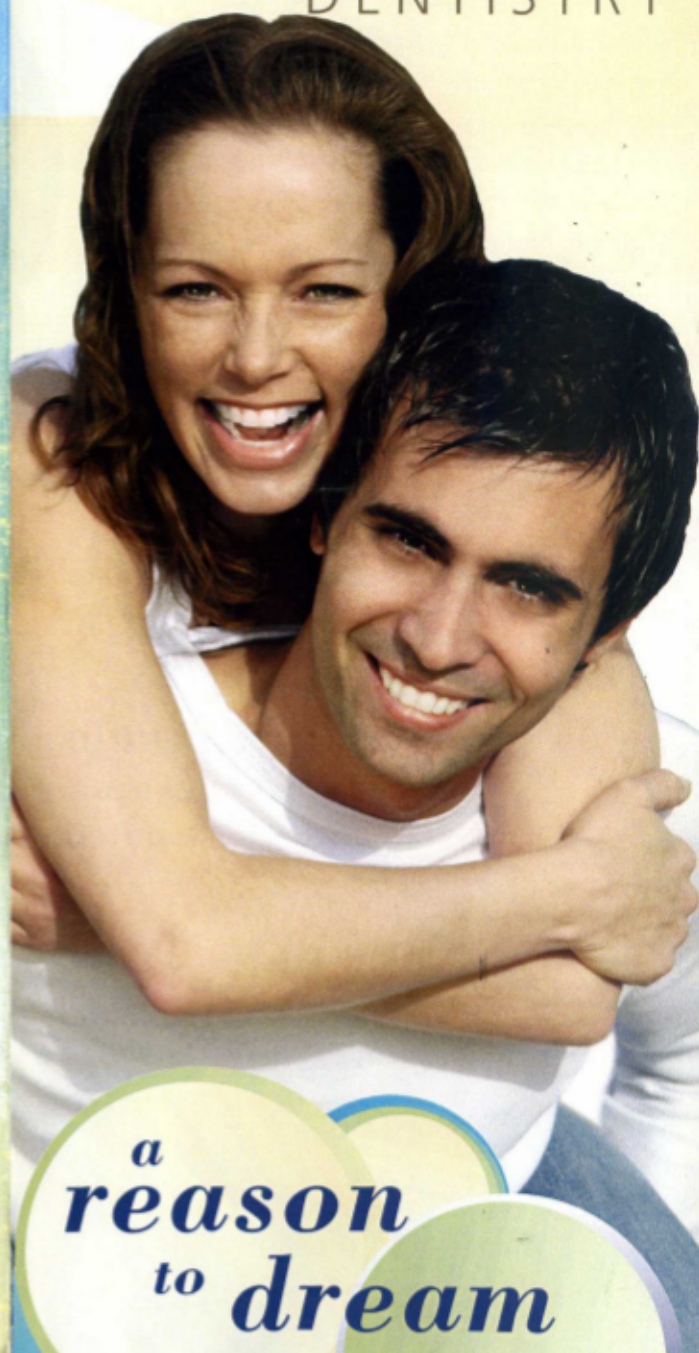

Dr. Mirelez attended Fresno State, graduated with honors, and earned his bachelor's degree in chemistry. His Doctor of Dental Surgery degree is from the University of California, San Francisco (UCSF) School of Dentistry. Dr. Mirelez attended a General Practice Residency Program at Fresno's University Medical Center, treating medically complex patients under general anesthesia. After completion of the intense MISCH International Implant Institute Program, Dr. Mirelez acquired his Fellowship with the International Congress of Oral Implantologist. He also received a sedation license from the Dental Organization for Conscious Sedation (DOCS). Dr. Mirelez is currently a clinical instructor at the prestigious UCSF School of Dentistry.

Dr. Mirelez is passionate about dentistry and honored to be part of an ever-changing profession, and he continues to be inspired by the technological advances in dentistry. He believes that "educated" patients make the best patients; therefore, Dr. Mirelez is committed to educating his patients so that an informed decision on treatment can be reached. Dr. Mirelez means it when he tells a new patient, "I promise to take great care of you."

Sedation DENTISTRY

a
**reason
to dream**

Sedation Dentistry... a reason to dream

HOURS WILL SEEM LIKE MINUTES

Fortunately, sedation medications have an amnesic effect. That means you'll have very little, if any, memory of the sights, smells or sounds of your visit.

RECOVERY IS A DREAM

When your treatment is complete you may be a bit wobbly, so your companion will take you home and stay with you until you're recovered. You'll be amazed at how much can be accomplished in such a seemingly short period of time, while you were totally relaxed, and completely comfortable. And best of all, the very next day you will feel fantastic.

with **sedation dentistry**
you can **regain your health**
and have the
fabulous smile
you always
wanted

TURN BACK THE HANDS OF TIME

Whether it's a broken tooth that needs to be fixed, yellow teeth that need to be whitened, missing teeth that need to be replaced, or pain that needs to be eliminated, with Sedation Dentistry you can regain your health and have the fabulous smile you always wanted.

ACCOMMODATING YOUR BUDGET

We'll work with you to maximize your insurance benefits and make convenient financial arrangements that will be as comfortable as Sedation Dentistry.

you **don't have to be afraid**
to go to the dentist
anymore

HERE'S HOW IT WORKS

STEP 1

Making your first appointment.

This is difficult for many anxious people, so we try to make this as easy as possible.

STEP 2

Welcoming visit.

We gather information regarding your health and discuss with you your wants and desires.

If you're comfortable, we'll take x-rays and look in your mouth. But you will never be judged or embarrassed.

STEP 3

Preparing for your sedation visit.

We'll give you a prescription for a sedative to take the night before your first appointment to guarantee a good night's sleep and to make sure you wake up relaxed.

STEP 4

Arriving for Treatment.

Your companion will bring you to the office. Additional medications will be provided to create the ultimate in relaxation. Your experienced sedation team will monitor you throughout your entire visit.

STEP 5

Going home with your new smile.

Your companion will take you home and stay with you until you're completely recovered from your sedation medication.

STEP 6

The next day.

Most patients feel no discomfort or residual effects from the dental visit and you'll be thrilled with all the compliments you will get.
